

High-Performance Vertical Closet Fan Coils 400 - 2,200 CFM

CABINET DESIGN

Cased Vertical fan coils range from 400 to 2,200 CFM. Units are constructed of heavy-gauge galvanized steel and insulated with ½" thick, over three-pound density, neoprene-coated fiberglass. Cased vertical fan coils are a draw-through design, featuring slide-out blowers with a quick connect plug. Galvanized drain pan is finished with a powder-coated epoxy and insulated with a 1/8" thick closed cell-insulation featuring primary and secondary drain connections.

Basic Bottom Return - CV-B

BASIC - CV-B or CV-K (CV-D or CV-J PAINTED)

The Basic is a high-static, ducted vertical cased, unpainted fan coil with a bottom (B) or front (K) return. It is primarily used in vertical floor-mounted or hideaway applications. This fan coil is furred into partition walls or hidden in closets, utility rooms and other concealed locations with a ducted discharge. A removable front access panel facilitates easy servicing of the coil, blower assembly, with quick-connect plug, and filter. A one-inch discharge duct flange is standard on top panel of each unit.

Deluxe CV-D

DELUXE - CV-D or CV-J

Our Deluxe cabinets are manufactured of cold-rolled steel, phosphate conversion-coated then finished in a soft-white powder-coated epoxy. The Deluxe option is available on all cased vertical cabinet styles.

DIRECT FRONT RETURN - CV-F (CV-R PAINTED)

The Direct Front Return is a high-static, ducted vertical fan coil for installation in a closet-type enclosure. The front is removable for easy-service access to the slide-out blower assembly, with a quick-connect plug. The Front return-air filter may be removed without removing front panel. The top-discharge opening has a one-inch duct collar. CV-F is shown with return-air grille option allowing the unit to be furred in and the grille mounted to drywall for easy access without the expense of a closet door. This unit is also available a with front supply.

Direct Front Return - CV-F

HEAT ONLY - CV-H (CV-O PAINTED)

The Heat Only model is a high-static, ducted vertical fan coil for installation virtually anywhere. The front panel is removable for easy filter removal and service access to the slide-out blower, equipped with a quick-connect plug. The top-discharge opening has a one-inch duct collar. This heat only version does not need a drain pan and may be installed horizontally.
