

# PRODUCT UPDATE BULLETIN

## NEW UPCS CREATED FOR WILLIAMS FURNACE MODELS WITH NO THERMOSTAT

In April 2019, it was announced that Williams furnaces with external thermostat would begin shipping without thermostats. That changeover is now complete and packaging has been marked with "Thermostat Sold Separately."

In order to more clearly delineate the older models with thermostats from those shipping today without, new UPCs have been assigned to the latter and can be found on page 2 of this bulletin.

Thermostats can be purchased separately under these part numbers:

P322106	Millivolt Thermostat
8967	Thermostat Kit - Millivolt Thermostat, Wire and Nut

WILLIAMS MODEL NO.	PRODUCT NAME	NEW UPC W/O THERMOSTAT	OLD UPC WITH THERMOSTAT
